Regulation CC – What you need to know about 2020 changes

Beginning July 1, 2020, your financial institution will be required to provide \$225 for next day availability for all instances where it was required to provide a minimum of \$200 prior.

If FRFCU is unable to make funds available to the member, we will notify you at the time of deposit.

Is my money safe in a credit union?

Credit unions encourage their members to save regularly to build economic security for themselves and their families.

Deposits at all federal credit unions and the vast majority of state-chartered credit unions are covered by National Credit Union Share Insurance Fund (NCUSIF) protection. Not one penny of insured savings has ever been lost by a member of a federally insured credit union.

Federally insured credit unions offer a safe place for you to save your money, with deposits insured up to at least \$250,000 per individual depositor. The National Credit Union Administration (NCUA) is the independent agency that administers the NCUSIF. Like the FDIC's Deposit Insurance Fund, the NCUSIF is a federal insurance fund backed by the full faith and credit of the United States government.
